

# Memorandum

---

To: THOMAS BLOODWORTH

From: ANGELA SAMS  
TODD GLAZEBROOK

Date: December 11, 1995

Subject: STATE STREET PROPERTIES

---

On December 11, 1995 at approximately 1100 a.m. OHM representatives Todd Glazebrook and Angela Sams walked the properties of 1420, 1430, and 1460 State street along with the USACE representative Thomas Bloodworth. The observations of Todd Glazebrook and Angela Sams are as follows:

No visible battery casings were found on the surface of any of the properties.

No visible battery casings were found under the surface at a depth of up to 3".

Photographs of the area taken by Thomas Bloodworth(USACE) were witnessed by Todd Glazebrook and Angela Sams.

## MEMORANDUM FOR RECORD

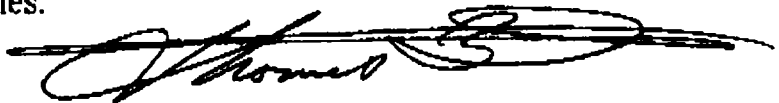

TO: Mr. Brad Bradley  
Project Manager  
NL/Taracorp Superfund Site  
U.S. Environmental Protection Agency

FROM: Thomas Bloodworth  
Project Manager  
NL/Taracorp Superfund Site  
U.S. Army Corps of Engineers

Dear Mr. Bradley;

According to our discussion on December 11, 1995 an inspection for battery chips on the properties at 1420/30/60 State streets was conducted. These properties are owned Mr. Obucina. The results of the inspection, even with some snow covered areas, are as follows; A total lack of any visible (surface) contamination by battery chips. Additionally, approximately twenty five feet on the west side of lot 1420 State street was used during the construction of the asphalt cap on 1412 State street. Access was attained from Mr. Obucina prior to start of work. During the construction process this area was compacted, with areas being covered with new rock and an overlap of tar and primer.

I, Thomas Bloodworth, took twenty seven photographs of areas on these three lots, finding them to be without any visible battery chip contamination. Present were Ms. Angela Sams, the contractor's Technical Supervisor and Mr. Todd Glazebrook, the contractor's General Foreman. Attached to this document is the contractor's memorandum, stating the results of their findings, during the inspection of these three properties.

Signed: Thomas Bloodworth  
Dated: December 11, 1995
